

# Time for a Picnic

## OBJECTIVE

- Use a practical example to learn how to draw a bar graph

## CURRICULUM

- Mathematics

## MATERIALS

- White art paper
- Laurentien Classic Washable Markers
- Laurentien Coloured Pencils
- Ruler

## DIRECTIONS

- Have the students pretend that they will be going on a picnic
- Provide the students with a list of items that they might need
- Have the students determine how much of each item they will need to bring and have them demonstrate their quantities in a bar graph
- Have the students colour each bar a different colour and display in a legend
